

Lubricating Oil/Fuel Oil Testing Service

Stern shaft and marine diesel engine lubricating oil testing as well as mechanical failure diagnosis service conducted by CCS provide key technical support for assigning corresponding class notations (SCM and ECM) to CCS classed ships.

CCS also provides testing for oil companies as an impartial third party. In addition to lubricating oil analysis and testing, CCS has actively developed testing service for other oil products, such as fuel oil and hydraulic oil quality assessment.

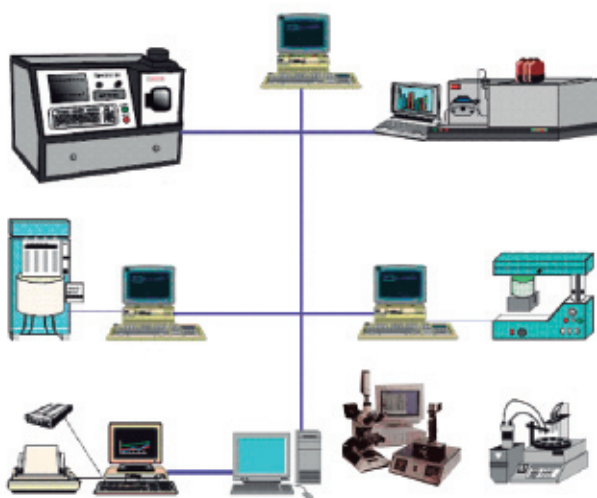

- ◎ To provide advance warning of lubricating and wear failure which help reduce unscheduled downtime and major failures;
- ◎ To arrange maintenances according to the practical conditions of equipment for avoiding unnecessary maintenances and oil replacement;
- ◎ To discover and eliminate failures and ensure long life of components and lubricating oil;
- ◎ To determine the causes and deterioration trends of lubricating and wear failure to prevent similar accidents.

Lubricating Oil/Fuel Oil Testing Service

With the enhancement of shipping management level and improvement of ship equipment management system, the survey scheme of ship equipment condition monitoring is increasingly favored by shipowners. And as there is increasing concern about environmental protection and energy consumption, emphasis is put on energy saving & emission reduction by enterprises. Hence, there will be increasingly strong demands on lubricating and fuel oil analysis and testing. By adhering to principles of “Devotion and Efficiency” and “Service Foremost” as well as combining CCS historical experience in this regard, CCS lubricating oil analysis and testing service network is devoted to providing high quality service to guarantee safe shipping and environmental protection.

CCS lubricating oil analysis and testing service network is well equipped with advanced devices, boasting a group of veteran and professional technical persons valuing team work spirit. By sticking to the CCS spirit of “Unity, Devotion, Impartiality and Efficiency”, the service principle of “Client First, Service Foremost”, and the quality policy of “Impartiality, Accuracy, Credibility and Efficiency”, the network is dedicated to providing convenient and high-quality service for clients.
