Notice on Implementation of Liquefied gas cargo and process piping (UR G3 Rev. 4)

International Association of Classification Society (IACS) adopted the correction version of UR G3 on March 2011. Rev.3 Dec 2008 and Corr.1 Dec 2009 are withdrawn.

The requirements of UR G3 Rev.4 are to be uniformly implemented by IACS Societies for piping components and pumps:

- i) when an application for testing is dated on or after 1 January 2012; and
- ii) which are installed in new ships for which the date of contract for construction is on or after 1 January 2012.

Prototype testing and unit production testing of cargo system valves and cargo pumps are amended by new requirements. Prototype testing and unit production testing of submerged electric motor driven pumps is different to shaft driven deep well pumps. The circular promulgated by force, it will instead of classed newbuilding department (2009) Circular No.012, Total No.072 and (2010) Circular No.22, Total No.22.
