Supersedes: ISP-002 dated 4/05

PURPOSE: The purpose of this Notice is to provide advice and guidance to owners, operators, and Masters of Liberian flag ships regarding the issuance and maintenance of the Continuous Synopsis Record (CSR). This amended Marine Notice incorporates recent amendments to SOLAS Chapter XI-1, Regulation 5 requiring inclusion of the IMO Unique Company and Registered Owner Identification Numbers on the CSR. Additional information on IMO Unique Company and Registered Owner Identification Numbers is provided in Marine Notice ADM-008.

BACKGROUND: When the International Ship and Port Security Code was adopted on 12 December 2002, a new Regulation 5 was added to Chapter XI-1 of SOLAS 1974, as amended, requiring vessels to maintain on board a CSR containing specific information regarding the history of the vessel's ownership, management, flag, and authority responsible for issuance of certificates. The information must be updated when it changes. Recent amendments to Chapter XI-1, Reg 5 require the addition of the IMO Unique Registered Owner and Company Identification Numbers on all new CSRs issued after 1 January 2009.

APPLICABILITY:

1. This requirement applies to:
 - Passenger ships, including high-speed passenger craft;
 - Cargo ships, including high-speed craft, of 500 gross tonnage and upwards; and
 - Self Propelled Mobile offshore drilling units (MODU).

2. It does not apply to:
 - Government-operated ships used for non-commercial purposes;
 - Cargo ships of less than 500 gross tonnage as measured by the Administration or the ITC 69, whichever is the lesser;
 - Ships not propelled by mechanical means;
 - Wooden craft of primitive origins;
 - Private pleasure yachts not engaged in trade; and
 - Fishing vessels.
3. Vessels not subject to mandatory compliance with the ISPS Code may do so voluntarily. However, the operators of such ships must make a written request to Marine Safety at LISCR for the issuance of a voluntary CSR. Once issued, it must be maintained in accordance with SOLAS regulatory requirements.

REQUIREMENTS:

1.0 Definitions

- 1.1 Administration: The government whose flag the vessel is registered to fly.
- 1.2 Convention: The International Convention for the Safety of Life at Sea, 1974 as amended (SOLAS).
- 1.3 Company: The owner of the ship or any other organization or person such as the Manager, or the Bareboat Charterer, who has assumed the responsibility for operation of the ship from the Shipowner and who on assuming such responsibility has agreed in writing to take over.
- 1.4 CSR: The Continuous Synopsis Record issued by the Administration.
- 1.5 CSR Amendment Form: a form utilized to update information contained in the CSR.
- 1.6 CSR Index of Amendments: the record of amendments made to the CSR.
- 1.7 ISPS Code: The International Ship and Port Facility Security Code.
- 1.8 ITC 69: The International Tonnage Convention, 1969.

2.0 CSR File

- 2.1 All ships required to have a CSR shall maintain on board a permanent CSR file containing all previously issued CSR Documents.
- 2.2 A ship's CSR File is comprised of:
 - .1 All Continuous Synopsis Records issued to the vessel numbered sequentially for the life of the ship;
 - .2 All Amendment Forms attached to each individual CSR relating to changes made to that CSR; and

- .3 All Indexes of Amendments listing all amendments (specified by Amendment Forms) relating to each CSR and attached to the CSR.
- 2.3 We recommend that the CSR File be maintained in a binder. The Flag Administrations maintain a copy of the ship's CSR file so that a certified copy may be transferred intact to a new flag Administration on change of flag or replaced on board the ship should the CSR be lost or destroyed.
- 2.4 A vessel's CSR file may be inspected by Port State Control Officers and other authorized persons.

3 Continuous Synopsis Record (CSR)

- 3.1 Only an Administration may issue a CSR to a ship, a sample copy of the Liberian CSR is in Appendix 1 of this Notice. The first CSR issued to a ship is numbered "1," and subsequent CSRs will be sequentially numbered regardless of the Administration.
- 3.2 Each original CSR shall be sent to the ship and kept by the ship throughout its lifetime. The Administration will keep a copy of each CSR it issued to the ship.
- 3.3 Whenever a CSR is issued to a ship, the Administration will provide all information in blocks 1 to 15. If the information is not applicable, it will be labeled N/A. For example, the information regarding a vessel's recordation as a bareboat charter registration is only to be completed when the ship is actually bareboat chartered into the registry.
- 3.4 If the ship is bareboat charter registered, the bareboat charterer will need to provide this Administration with the name and address of the owner listed on the Certificate of Registry and their IMO Unique Number from the underlying flag so the information may be listed in the block on the CSR for the owner.
- 3.5 If there is more than one entity listed as an owner of the ship, each such entity, their address and their IMO Unique Numbers will also be listed on the CSR.
- 3.6 If there is more than one entity that is party to the bareboat charter, each such entity and their address will be listed on the CSR.

4.0 Amendments and Indexes completed by the Company or the Master

4.1 When any change relating to the entries listed in the CSR issued to the ship have taken place, this change (or changes) shall be included on the CSR Amendment form, Appendix II. The Company's Representative or Master shall complete the Amendment Form, Appendix III, in pen and ink and the Master shall attach the original to the vessel's current CSR file. The CSR file on board the ship shall be maintained in chronological order.

4.2 The details of the amendment shall be entered in the Index of Amendments, Appendix III, in the ship's CSR file. A copy of the Amendment form and the revised Index of Amendments page shall be forwarded to the Administration. This will allow the Administration to confirm that it has a complete copy of the ship's CSR file and expedite the issuance of a revised and updated CSR. The person completing the amendment may also send a copy to the company operating the vessel in accordance with company procedures.

5.0 In case of loss of, or damage to, any ship's CSR File

In case the CSR is lost or damaged, the Company and/or Master shall contact the Administration in writing without delay, listing the papers (pages) which were lost or damaged. The Administration will provide certified copies of the CSR s, CSR Amendment Forms and Index of Amendments available in its files.

6.0 Verification and Correcting Errors

Liberian Nautical Inspectors will examine the CSRs during the Annual Safety Inspection and will contact the Administration should any errors be identified in order to correct the record.

7.0 Change of Flag Requirements for vessels leaving the Liberian Flag:

Along with the Request for Permission to Transfer out of the Liberian flag, a transferring owner shall be required to identify the prospective flag Administration so the vessel's CSR File may be provided to the gaining flag Administration. This must occur before the Liberian Administration will issue a Certificate of Cancellation.

8.0 Procedures for Issuing the New, Revised or Updated CSR:

8.1 Change of Flag to Liberia: In accordance with Reference (e), the previous Administration is required to issue a revised CSR to the ship, indicating in block 15, the date ship ceased to be registered with that Administration. That Administration is also required to send the Liberian Administration a copy of the vessel's complete CSR file as soon as possible and no later than one month from the date the ship ceased to be registered. If the CSR file is not received from the previous Administration, the Master or Company representative may be requested to send a copy of the CSRs, which are on board the ship in order that new sequentially numbered CSR can be issued by this Administration.

In instances where the previous flag State has not forwarded the CSR file of the ship covering the period during which the ship was entitled to fly its flag, within three months from the date of change of flag, the Liberian Administration in accordance with reference (e) will issue a CSR

based on the CSR information received from the CSR file onboard the ship. The sequential number to be allocated to the CSR document to be so issued will be the second sequential number after the last sequential number shown on the CSR document. The reason for issuing the CSR document in such a manner will be explained in block 16.

As stated in reference (e), when reviewing the CSR files, Port State Control Inspectors should be guided by the provisions of the resolution, as well as the remarks shown in block 16 on the CSR document. In the circumstances referred to in the paragraph above, the missing sequential number should be considered as constituting a deficiency against the previous flag State. Such a deficiency is due to the fact that the previous flag State did not forward the CSR file and thus failed to fulfill its obligations under SOLAS regulation XI-1/5.

8.2 Newbuildings and vessels which have never received a Continuous Synopsis Record (eg. ships which have never been placed in service, or registered, or engaged in international voyages): The Company Representative or Master shall submit the information necessary to develop a vessels initial Continuous Synopsis Record by using form RL 5003, Appendix IV.

8.3 Change of Ownership and Re-Registration of a Liberian Flag ship: Master or Company Representative shall complete and send a copy of the Amendment Form and the modified Index of Amendments page to the Administration for processing an updated CSR.

8.4 Change of Owner's Name: Master or Company representative shall complete and send a copy of the Amendment Form and the modified Index of Amendments page to the Administration for processing an updated CSR.

8.5 Change of Vessel Name: Master or Company Representative shall complete and send a copy of the Amendment Form and the modified Index of Amendments page to the Administration for processing an updated CSR.

8.6 Change of Safety Management Company's Name: The vessel operator shall, in addition to the relevant required documents, ensure that the Master or Company Representative completes an Amendment Form and the Master adds the original Amendment form to the ship's CSR file. The Master shall submit a copy of the completed Amendment Form and the modified Index of Amendments page to the Administration for processing an updated CSR.

8.7 Change of Recognized Organization issuing the Company's Document of Compliance and/or the vessel's Safety Management Certificate: The vessel operator acting on behalf of the owner shall, in addition to the relevant ISM documents, ensure that the Master or Company Representative will complete and send a copy of the Amendment Form and the modified Index of Amendments page to the Administration for processing an updated CSR.

8.8 Change of the Recognized Security Organization (RSO) or Administration issuing the vessel International Ship Security Certificate (ISSC) with respect to the ISPS Code: The Master or Company Representative will complete and send a copy of the Amendment Form and the modified Index of Amendments page to the Administration for processing an updated CSR.

9.0 The forms mentioned in this Marine Notice as Appendixes II to IV are available on the Administration's web site as follows:

www.liscr.com Maritime Tab / Documents / Marine Notices / ISP-002 and can be filled out electronically.

Forms completed according with the previous sections should be submitted by e-mail to safety@liscr.com for timely processing. Back-up copy files may be maintained electronically, but the original CSR and complete CSR File must be maintained on board the vessel by the Master.
