PART ONE PROVISIONS OF CLASSIFICATION

CHAPTER 2 SCOPE AND CONDITIONS OF CLASSIFICATION

Section 11 CERTIFICATES AND REPORTS

2.11.2 Duration and validity of certificates

2.11.2.1 The period of validity of classification certificates of floating installation is in general not to exceed 5 years.

~~2.11.2.2 The period of validity of interim classification certificates of floating installation is not to exceed 5 months.~~

2.11.2.32 The period of validity of classification certificates is to be harmonized with that of statutory certificates of the floating installation as possible.

2.11.2.43 When the special survey is completed within three months before the expiry date of the existing certificate, the new classification certificate is to be valid to a date not exceeding five years from the date of expiry of the existing certificate.

2.11.3 Issue and endorsement of classification certificates

2.11.3.1 Upon completion of classification surveys, ~~an interim classification certificate is to be issued by the survey floating installation.~~

~~2.11.3.2 Upon issue of an interim classification certificate, the authorized personnel of the survey floating installation is to issue submit the interim classification certificate, together with records, reports and other technical documents, to reviewed by the related department of CCS Headquarters for review and then submitted by the department to the Class Committee and upon approval by the Committee, a classification certificate the final entry into CCS will be issued verified by the President of CCS or the authorized personnel of CCS Headquarters person(s) authorized by him.~~

2.11.3.32 The classification certificate is to be endorsed by the Surveyor as required after completion of the survey after construction as specified in Chapter 5 of this part.

2.11.3.43 Where a new classification certificate cannot be issued to the floating installation before the expiry date of the existing classification certificate after completion of the special survey, the existing classification certificate may be endorsed by the Surveyor, which is to be valid within 5 months from its expiry date.

2.11.3.54 Upon completion of the special survey, ~~the authorized personnel of the survey floating installation is to issue submit a report and other technical documents to the related department of CCS Headquarters or another designated survey floating installation for review, and upon satisfactory review a new classification certificate will be issued by the President of CCS or a person authorized by him.~~

2.11.3.65 Notwithstanding the provision of 2.11.2.1, CCS may, when applying ~~2.11.3.54~~, determine a period of validity less than 5 years for the classification certificate and/or take any other necessary restrictive measure (e.g. service restriction(s) being noted on the newly issued classification certificate), based on a comprehensive consideration of the available information on other aspects of safe operation of the floating installation (safety inspections by the flag/port State, safety management of the floating installation company, etc.). Where the period of validity is shortened, it is to be harmonized with the intervals between classification/statutory surveys so far as practicable and regular reports are to be sent to the Class Committee.

CHAPTER 5 SURVEYS AFTER CONSTRUCTION

Section 12 INITIAL CLASSIFICATION SURVEYS OF FLOATING INSTALLATION CONSTRUCTED NOT UNDER THE SUPERVISION OF CCS

5.12.1 General requirements

5.12.1.1 The initial classification surveys of floating installation constructed not under the supervision of CCS includes:

- (1) initial classification surveys of floating installation which are under construction;
- (2) initial classification surveys of floating installation after construction.

5.12.1.2 The initial classification surveys specified in this Section include surveys related to class notations.

5.12.1.3 Whenever CCS is requested by an owner to accept the transfer of class for a floating installation and the losing Society is the one accepted by CCS, CCS is to immediately notify the owner in writing that:

- (1) the relevant surveys specified in 5.12.3.1 are required to be satisfactorily completed for entry into class;
- (2) for floating installation less than 15 years of age, ~~an Interim a~~ Certificate of Class can be issued only after CCS has completed:

- ① all overdue surveys; and
- ② all overdue recommendations/conditions of class previously issued against the floating installation as specified to the owner by the losing Society;

(3) for floating installation 15 years of age and over, ~~an Interim a~~ Certificate of Class can be issued only after confirmation by CCS that the losing Society has completed:

- ① all overdue surveys; and
- ② all overdue recommendations/conditions of class previously issued against the floating installation;

(4) any outstanding recommendations/conditions of class are to be dealt with by their due dates;

(5) the principles given in items (1), (2) and (3) above apply to any additional recommendations/conditions of class issued against the floating installation arising from surveys which were not included in the initial survey status provided by the losing Society because the surveys were carried out in close proximity to the request for transfer of class. Such additional recommendations/conditions of class if received after the issuance of the ~~Interim~~ Certificate of Class by CCS and which are overdue are to be dealt with at the first port of call by the relevant Society depending on the age of the floating installation;

(6) copies of the plans listed in this Section are to be provided to CCS as a prerequisite ~~to obtaining a full term Class Certificate~~ for the final entry.
