# **PART ONE PROVISIONS OF CLASSIFICATION**

## **CHAPTER 5 SURVEYS AFTER CONSTRUCTION**

### **Section 1 GENERAL PROVISIONS**

#### **5.1.1 General requirements**

5.1.1.1 For the purpose of maintaining the validity of certificates, units which have been classed with CCS are to be subject to various surveys as specified in Section 2 of this Chapter, as appropriate. Such surveys may be extended by CCS Surveyors at their professional judgment, and the owner is to provide appropriate survey conditions and make arrangements accordingly and has the obligation to pay the expenses related to extending the surveys.

5.1.1.2 If any damage or defect affecting the validity of certificates is found at any of the surveys, the Surveyor is to inform the owner or his representative of the recommendations in time when he deems necessary. When such recommendations are not dealt with, the Surveyor is to report this to the Headquarters of CCS immediately.

5.1.1.3 It is the responsibility of the owner to apply to CCS for all surveys necessary for the maintenance of the validity of certificates and to make preparations and take safety precautions for surveys in accordance with the requirements of the Rules.

5.1.1.4 Regarding surveys after construction for old-aged units, CCS will give special consideration.

[5.1.1.5 In addition to drilling units, the requirements of this chapter shall also apply to other service-built units as specified in Table 2.3.2.5 B of this Part.](#)

### **Section 4 SURVEYS OF MACHINERY INSTALLATIONS AND SYSTEMS**

#### **5.4.4. Special surveys**

5.4.4.10 [Piping-High Pressure piping](#) systems ~~used solely for drilling or production operations~~ are to be examined, as far as practical, operationally or hydrostatically tested to working pressure, to the satisfaction of the Surveyor.
